

HOW TO MAKE A TIPPY TAP

Step 1:

What you need to make the tippy tap:

- Plastic bottle with screw-on cap
- Medium plastic tube
- Pliers
- Screwdriver
- Short piece of metal wire
- Candle
- Rope
- Bar of soap

Step 2:
Clean the
bottle well.

Step 3:
Heat the wire over the lit
candle. Make a small hole in
the lower part of the bottle.

Step 4:
Push the plastic tube through
the hole of the bottle, the
tube should fit tightly.

Step 5:
Push a hole through
the soap with the
screwdriver.

Fill the bottle with clean water and replace the cap
When the cap is tight, no water should flow through the tube.
When the cap is loose, the water should flow out in a stream from the tube.

Step 6:
When you are sure it works, hang/ place it where
people can use it for hand washing. Keep soap
nearby, by threading the soap with string
and tie it to the bottle.
