

Acid spill

Category Game
Type Team game
Time to allocate (mins) 15

Instructions

To play as a team to get across the floor. Cubs pretend there is an acid spill and they can't touch the ground. Use paper/plastic sheets as "safe" zones that can be moved and add chairs and other static items.

Each team to work on getting across the playing area. There are not enough "safe" points for the whole team so they will have to share or create a strategy to get across.
