

Coconut Relay

Category	Game
Type	Relay game
Time to allocate (mins)	10
Instructions	<p>You will need: Ping pong balls and a pool noodle for each team.</p> <p>The object of the game is for teams (one person at a time) to herd 3 ping pong balls (or coconuts) at the same time around an obstacle course (or back and forth around an orange cone) only using the end of the pool noodle. This works great indoors on a tile floor ... for outside you can still use the ping pong balls or use balloons. Tip: the ping pong balls can be colored with permanent markers in the tribes colors to keep track of what balls belong to each team.</p>
