

Crossing the Desert

Category	Game
Type	Relay game
Time to allocate (mins)	20
Instructions	Provide the Cubs with a selection of items to help them survive in a desert crossing. Each team selects a certain number of items and then, using ropes, tie the items together and onto the first Cub. That Cub "crosses the desert" without any items falling off to pass to the next Cub in the team. The desert can include some obstacles to climb over or under to make it harder. If items fall off, the Cub must return to the beginning and try again.
