

Draw a Spider

Category	Game
Type	Relay game
Time to allocate (mins)	15
Instructions	<p>Print one copy of the game sheet for each Six. Add a dice and some drawing pencils or markers.</p>
	<p>To play: Each Six takes turns to run to the end of the Hall and roll the die, following the chart to know which spider part to draw (each spider has five body parts in total – a cephalothorax (head), abdomen, pedipalps, eyes, and a set of legs). They then return to their Six and the next Cubs runs to the end of the Hall to throw the dice. Each Six will draw four spiders in total, one on each hanging piece of web. They may be working on drawing multiple spiders at once, you do not need to finish one spider before commencing the next. The first Six to finish drawing all four spiders on their game sheet wins the game.</p>
