

Human Tic Tac Toe

Category	Game
Type	Steam release
Time to allocate (mins)	10
Instructions	Set up three rows of three chairs each to form the tic-tac-toe grid. Each Six decides on their team designation, e.g., hands on head for one team and hands across the chest for the other. The Sixers then play tic-tac-toe the usual way, using humans as the X's and O's. If your group is too small to have five people per side, divide the team in half and use a specified marker for each team in place of the people markers.
