

Water Filtration

Category	Activities
Advancement	Conservation
Time to allocate (mins)	15
Outcome	Basic method to clean water

Resources

2l bottles
coffee filters/cotton wool
course sand
fine sand
pebbles
charcoal

Instructions

Cut bottle as shown. Put the coffee filter or a cloth over the lid and attach with elastic band. Then layer fine sand, courser sand, pebbles.

Can add charcoal if available

Pour in dirty water at the top and wait for the water to flow through to the bottom, cleaned of many impurities.
